About Magmatic Resources

Magmatic Resources Ltd (ASX: MAG) is a NSW-focused copper, gold and base metals explorer that listed on the ASX on 19 May 2017. The Company's portfolio consists of three 100% owned projects (Myall, Moorefield and Wellington North) and one joint venture project (Parkes) comprising seven granted exploration licences (856km²) in the East Lachlan province in central NSW. The East Lachlan province is host to major copper-gold mining operations within the Ordovician Macquarie Arc with significant metal endowments such as Cadia, Cowal and Northparkes. Other advanced projects include McPhillamys, Marsden, Temora, Copper Hill and Tomingley. The portfolio was acquired from Gold Fields Australasia Pty Ltd (Gold Fields) in 2016 and is prospective for porphyry copper-gold, epithermal and orogenic gold deposits and skarn and VHMS base metals ± gold deposits. Gold Fields retains a significant shareholding in the Company.
